

The Pavilion fabric canopy by Queen City creates an all-weather protected environment outdoors. The Pavilion Canopy provides protection from sun, rain and snow and is an ideal way to create outdoor break areas for employees and users of facilities that have "no smoking" policies. Optional sidewalls can act as windbreaks for the Guardian Canopy. Fabric Awnings have a natural inviting warmth which few other building materials can achieve. Proline Fabric Awnings are custom made to conform to most any building and feature rigid welded structural metal frames with architectural fabrics specifically designed for exterior use.

Specifications:

Series: ProLine

Style: Pavilion fabric canopy

Size: Specify width, height and projection

Frame:

Steel - Galvanized square and rectangular ASTM A-500 steel tube with smooth, clear polymer finish. Connections are welded and coated with rust inhibitive paint to match galvanized finish. Fabric attaches to frame either by lacing or tec screws.

Mounting: Canopies are furnished with galvanized square steel tube posts.

Specify post flange or sleeve and footer.

Fabric: Specify type and/or brand.

Canvas - Woven acrylic fabric is U.V. and mildew resistant and water repellent.

Available in solid colors and striped patterns. Some solids and patterns available in a flame resistant series.

Vinyl - Laminated or coated polyester fabric is U.V. and mildew resistant and water repellent. Available in solid colors and with protective coatings. Also available in translucent colors for backlighting. Most vinyl fabrics are flame resistant, consult factory.

Graphics: Lettering and signage can be applied to fabrics in a variety of methods. Surface applied graphics for non-backlit applications and translucent graphics for backlit applications.

Options:

Painted Frames - Awning and canopy frames can be electrostatically painted to match specified colors.

Specifications subject to change without notice. Consult factory for any unique requirements.
